

WHAT'S NEW FOR TRANSIT CONNECT WAGON?

The new Transit Connect Wagon is an affordable, versatile, tech-laden adventure enabler that's great for family, work or play. Here are key highlights of what's new for 2019:

DESIGN, TECHNOLOGY, & POWERTRAIN

- All-new powertrains, including 2.0-liter GDI four cylinder standard and available 1.5-liter EcoBlue Diesel – a segment exclusive
- Available tow package provides unsurpassed towing capability (2,000 pounds)
- Seven new standard driver-assist technologies including standard Pre-Collision Assist with Pedestrian Detection
- Available in two wheelbases, three trim levels, and with seating for up to seven, it offers more choice in configurations than any vehicle in its class
- New front-end design
- Available HID headlamps with signature LED lighting and LED fog lamps

INTERIOR

- Redesigned dashboard with available 6.5-inch touchscreen
- Enhanced comfort seating in first and second row
- Segment-exclusive third-row seating (Passenger Wagon)
- Segment-exclusive embedded 4G LTE modem standard
- Segment-exclusive available wireless phone charging
