

MEET THE ALL-NEW EDGE ST – THE FIRST FORD PERFORMANCE SUV

In addition to updated styling and new driver-assist features available on the entire Edge lineup, the 2019 Ford Edge ST sets itself apart with equipment that truly makes this Ford's first-ever performance SUV

- 1 Specially tuned 2.7-liter V6 EcoBoost® engine, producing 335 horsepower and 380 lb.-ft. of torque*
- 2 Sport Mode and selectable traction control with all-wheel-drive calibration for balanced front and rear torque distribution
- 3 ST-tuned sport suspension
- 4 Quick-shifting 8-speed transmission
- 5 Standard all-wheel drive for improved traction in the city, on the highway and at the track
- 6 Unique front fascia and wide mesh grille for optimal cooling
- 7 Deep side skirts for reduction in downforce
- 8 20-inch wheels (21-inch wheels available)
- 9 Available performance brakes
- 10 Available summer-only tires

*Numbers achieved using 93-octane fuel

- 11 Unique dual-exhaust outlets
- 12 More resonant exhaust tone in Sport Mode
- 13 Water-cooled power transfer unit for improved all-wheel-drive performance capabilities

- 14 Contoured ST sport seating
- 15 Steering wheel-mounted SelectShift® paddle shifters
- 16 ST badging on the steering wheel and seat backs; Ford Performance badging on the scuff plates
